Education

2006 - 2009 Digital Arts and Entertainment, Howest.
2005 - 2006 Master after Master Business Economics, KULeuven.
2000 - 2005 Master of Computer Science, KULeuven.
(Majors: Software Engineering, Multimedia, Artificial Intelligence).

Experience

10/2017 - Present Freelance Consultant, Advanced Software Solutions.
As senior .NET Consultant, I specialize in everything that is .NET related.

06/2016 – 09/2017 Senior .NET Consultant, Branch.
I worked on a very interesting project at OTN Systems. They make mission-critical networks for specific industrial markets. I was involved in several big features including the group and layout system, the large network monitor, the generic device framework and several others. This project was a combination of several technologies, but most of my time was spent in WPF.

09/2014 - 05/2016 .NET Consultant, Ordina.
I worked on a project at Sopra Banking Software for two years. This ranged from writing business code in the back-end, making WCF services, to doing some front-end work. I was also part of the performance team and worked on a batch framework that runs nightly processes. Lastly, I was also involved in an ALM project to update their TFS installation and to modernize their development procedures (like introducing scrum).

10/2013 - 04/2014 Game Prototyping Programmer, PreviewLabs.
PreviewLabs is a company specialized in rapid prototyping for video games. As a programmer I worked on all kinds of projects that had to evaluate the feasibility and entertainment value of game concepts.

- 01/2010 - 09/2013 Co-founder & Lead Developer, Triangle Factory.
I'm one of the co-founders of Triangle Factory. I worked on a variety of projects, usually overlooking the code side of things. Quite often I was also responsible for client contact, design, testing and support after release. I also created and maintained the in-house code library.
- 02/2012 - 06/2012 Programmer, Aim Productions (outsourced by Triangle Factory).
Development of an in house road creation tool for their Tacx Trainer Software.
- 02/2009 - 05/2009 Digital Artist, Grid VFX.
For my internship, I worked on a wide range of visual effects, from commercials to movies.

Knowledge, Skills & Interests

Visual Studio, ReSharper, Azure, Azure DevOps, TFS, SQL Server, Unity3D.

C#, .NET Core, .NET Framework, ASP MVC, WEB API, UWP, WPF, WCF, SQL, HTML5, JS, CSS3.

Certified Scrum Master; experience with project management tools such as Azure DevOps, TFS, Jira, Assembla and Trello.

Very interested in ALM and build & release automation.

Passionate about all aspects of software design and application development.

Strong focus on design patterns and code structure.

Loves working in a team of motivated people that can exchange experience and knowledge.

Experience with multimedia software such as Photoshop and Premiere Pro.

Certificates

- 12/2018 Developing Mobile Apps
- 04/2018 Delivering Continuous Value with Visual Studio Application Lifecycle Management
- 12/2017 Software Testing with Visual Studio
- 12/2017 Administering Visual Studio Team Foundation Server
- 03/2017 Universal Windows Platform - App Data, Services, and Coding Patterns
- 03/2017 Universal Windows Platform - App Architecture and UX/UI
- 02/2017 Developing Microsoft Azure and Web Services
- 02/2017 Recertification for MCSD: Windows Store Apps using C#
- 01/2017 Developing ASP.NET MVC Web Applications
- 04/2016 TS: Windows Applications Development with Microsoft .NET Framework 4

- 02/2016 TS: Accessing Data with Microsoft .NET Framework 4
- 09/2015 Programming in HTML5 with JavaScript and CSS3
- 07/2015 TS: Windows Communication Foundation Development with Microsoft .NET Framework 4
- 06/2015 Certified Scrum Master
- 02/2015 Advanced Windows Store App Development Using C#
- 11/2014 Essentials of Developing Windows Store Apps Using C#
- 09/2014 Querying Microsoft SQL Server 2012/2014
- 05/2014 Programming in C#

Awards

- 2008 Future Flow, 2nd place Game Development, Microsoft's Imagine Cup
- 2008 Future Flow, 1st place Best Integration Project, Multimania
